EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicants, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 38 to 59.

2. This application is in condition for allowance except for the presence of claims 38 to 59 directed to an invention non-elected without traverse. Accordingly, claims 38 to 59 have been cancelled.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

Independent claim 31 is allowable because the prior art of record does not disclose or reasonably suggest a combination for performing a series of operations by activating a chained series of grammars for a statement containing more than one uninterrupted user command, and, for each grammar linked to another grammar by contextual information for implicitly specifying data, determining options to make available to the user. Generally, *Hunt et al.* teaches linked grammars, but does not

disclose a chained series of grammars for performing a series of operations from uninterrupted user utterances, or determining options to make available to the user by contextual information. *Houser et al.* suggests what can be construed as at least one chained command for performing a series of operations for a command "GOTO CHANNEL NUMBER AT TIME" (column 25, lines 38 to 64), where an electronic program guide then displays options permitting a user to select a channel for viewing or to perform alternate actions, implicitly. However, the prior art of record does not further disclose or reasonably suggest employing contextual information to determine what options to make available to the user for commands implicitly specifying a type of data. Applicants' Specification, Page 11, Lines 19 to 22, discloses chained grammars, e.g. "Set Options Favorite Channel 2" or "Set Options Favorite Category Sports". Furthermore, the Specification, Page 20, Lines 7 to 25: Figure 6, and Page 20, Line 27 to Page 21, Line 7: Figure 7, reasonably discloses how options for actions are displayed to a user following a chained command or a command implicitly specifying data by contextual information. Applicants' Specification, Page 3, Lines 8 to 18, suggests an advantage of providing an intuitive and easy-to-use way to find programs and information to control a television viewing experience.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MARTIN LERNER whose telephone number is (571)272-7608. The examiner can normally be reached on 8:30 AM to 6:00 PM Monday to Thursday.
